COVINA REDISTRICTING 2021 PUBLIC PARTICIPATION KIT TOTAL POPULATION BY POPULATION UNIT

Name: 

Phone and/or Email: 

Please use a thick dark-colored pen to draw your map, then submit it at City Hall or by email to districting@covinaca.gov. You can hand deliver, mail, fax, scan and email, or photograph and email your map.

Each number indicates the total population of that 'population unit' area. Each district must have essentially equal population. The population of each of the 5 districts should be between 9,775 and 10,803.

An online version of this map that allows you to zoom in and out for more detail is available as a link from the project website: <https://mapcovina.org/>

Would have appreciated the demographic information to be sure the information corresponded with perceived neighborhoods. So have put together multiple maps with a few versions hoping to see how they are graded. Also want to be sure that if any were disqualified for one reason or another, that others put together differently would survive

The kit was a bit clunky, here is my fourth attempt. Built for compactness, clear boundaries, neighborhood cohesion and population balance. It is largely the same as the third, with slight population unit exchanges that may come back better or worse once graded for demographics. Happy to hear feedback on any disqualifying features in time to update. Hoping can be graded before the next meeting on the subject to give time for potential revision.

Description:

Red District - Southern district bordering freeway and shopping. Comprised of higher percentage of renters and multi family buildings

Bright Green District - Western district. With Citrus on the eastern border, continues to the western edge of the city South of Covina blvd.

Dark Green District - Northern District for all incorporated parts of the city north of Covina Blvd.

Blue District - Central district. Central areas of the city surrounding the main north south corridors of Barranca and Grand. The small nub at grand and Covina blvd is still best to be connected to the 887 population unit.

Purple District - Eastern district comprising of the more expensive homes and higher income

Map has the extra benefit that all 5 districts have unincorporated areas. If those areas are annexed into the city in the future, that gain would be distributed amongst all districts.

District voting order:

Using the most recent available data, it appears those up for election in 2024 currently reside in the purple and dark green districts. So those would remain in place for the 2024 cycle. Placing the bright green, blue, and orange districts up for 2022 vote.
