PUBLIC PARTICIPATION KIT
TOTAL POPULATION BY POPULATION UNIT

Please use a thick dark-colored pen to draw your map, then submit it at City Hall or by email to *districting@covinaca.gov*. You can hand deliver, mail, fax, scan and email, or photograph and email your map.

Each number indicates the total population of that "population unit" area. Each district must have essentially equal population. The population of each of the 5 districts should be between 9,775 and 10,803.

An online version of this map that allows you to zoom in and out for more detail is available as a link from the project website: https://mapcovina.org/

Fwd: District Map Submission - Version 8

Subject: District Map Submission - Version 8
To: <districting@covinaca.gov>

Would have appreciated the demographic information to be sure the information corresponded
with perceived neighborhoods. So have put together multiple maps with a few versions hoping to see how they are
graded. Also want to be sure that if any were disqualified for one reason or another, that others put together differently
would survive

The kit was a bit clunky, here is my eighth attempt. Built for compactness, clear boundaries, neighborhood cohesion and
population balance. Happy to hear feedback on any disqualifying features in time to update. Hoping can be graded before
the next meeting on the subject to give time for potential revision.

Description:

Blue District - North Western district. Area west of Hollenbeck, and encompassing all of Azusa highway

Bright Green District - Southern edge bordering shopping districts and the freeway. Higher population of renters and
multiple family properties.

Purple District - Downtown Covina District. Focused on the area with Citrus Ave at the center, north of Badillo.

Red District - District surrounding the grand central corridor, its shopping and residential neighborhoods.

Dark Green District - Eastern District. Comprised on Badlillo Corridor and Covina Hills. Encompassing some of the highest
income and property value homes in the city.

District voting order:
Using the most recent available data, it appears those up for election in 2024 currently reside in the dark green and blue
districts. So those would remain in place for the 2024 cycle. Placing the bright green, purple, and red districts up for 2022
vote.

For what its worth, this map focusing on main north south corridor (Azusa, Citrus, and Grand) reflects communities of
interest that are very hard to otherwise capture. With the remaining freeway and eastern district best capturing in my mind
Covina if it has to be split 5 ways. It also is one of the most compact, with almost all lines following clear boundaries that
are easy to understand
