12,666

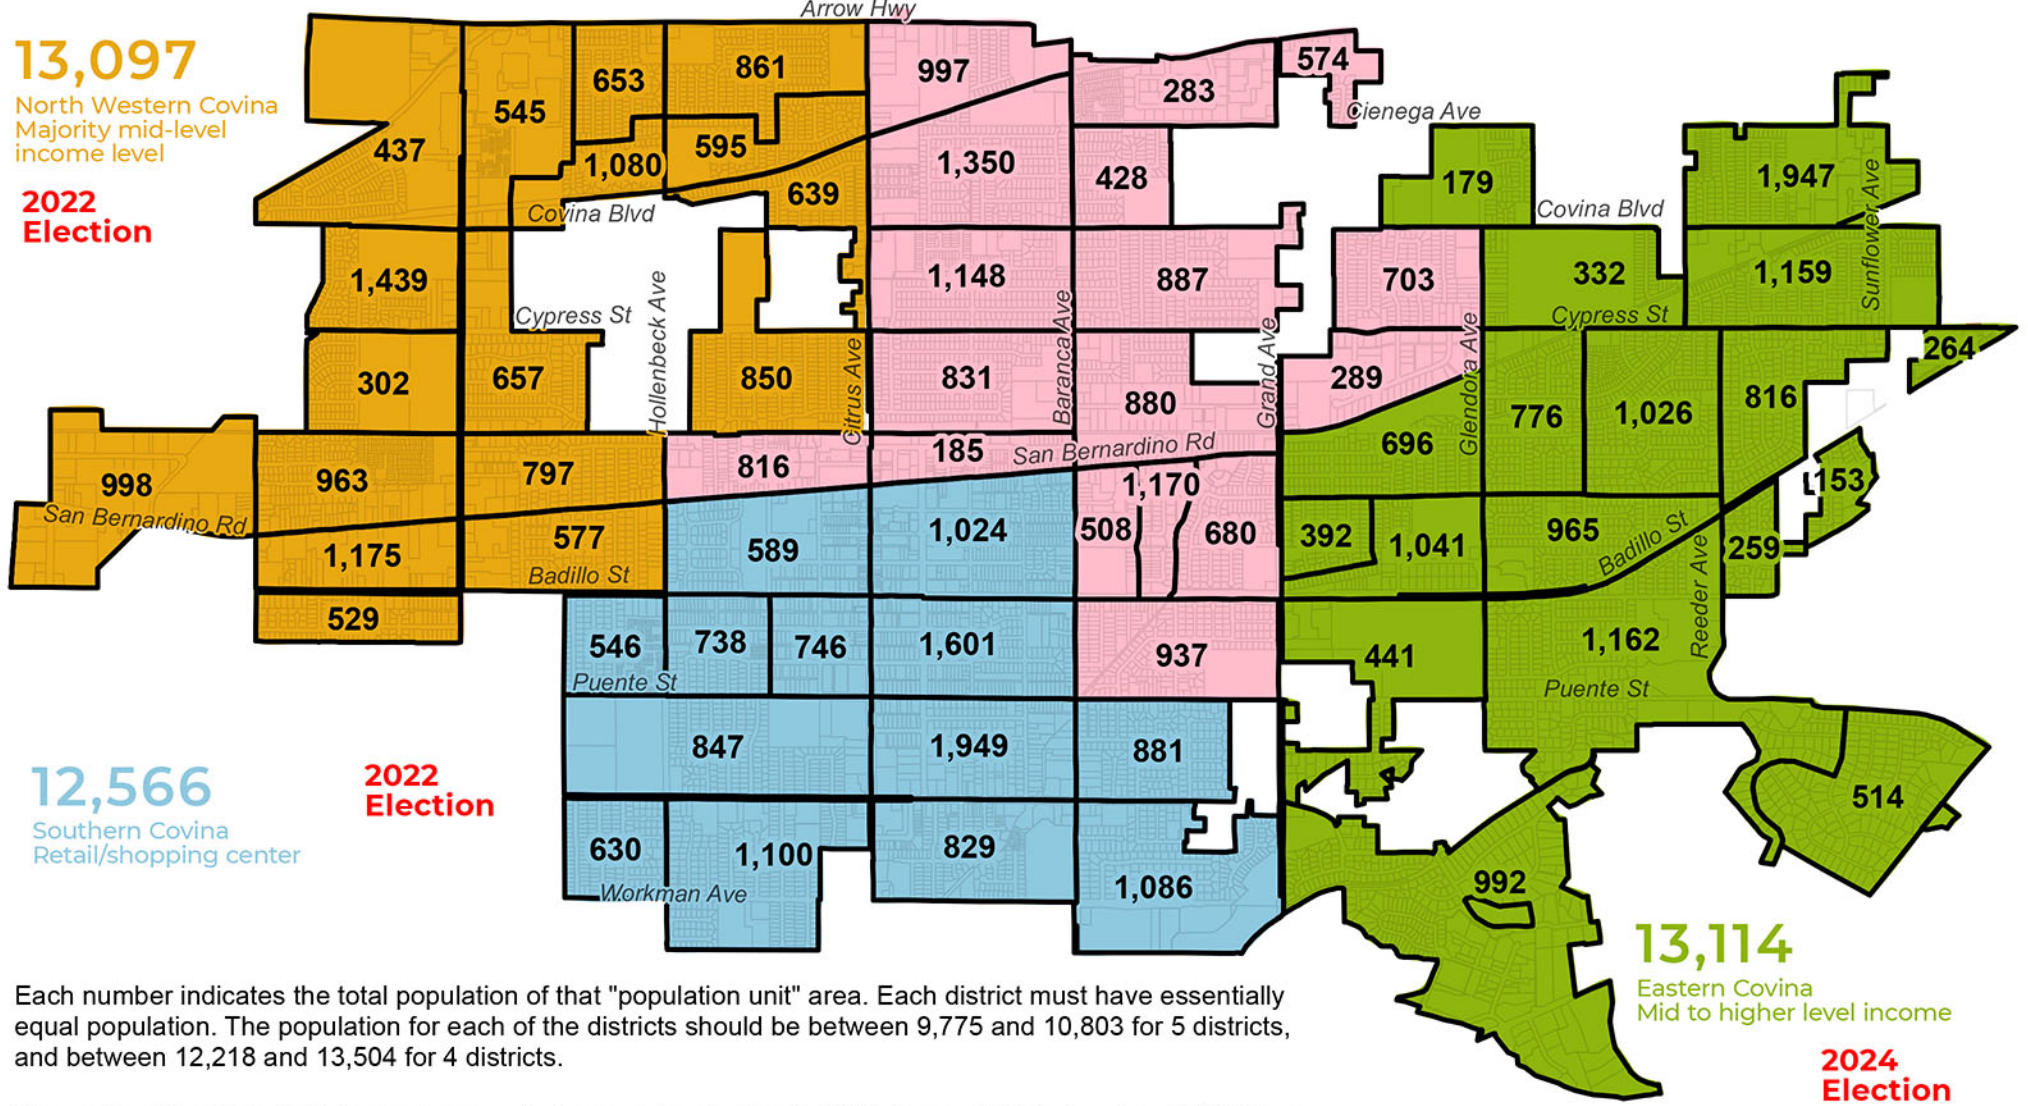

2024 Election

Northern Covina
Majority lower-income level

13,097

North Western Covina
Majority mid-level
income level

2022 Election

Each number indicates the total population of that "population unit" area. Each district must have essentially equal population. The population for each of the districts should be between 9,775 and 10,803 for 5 districts, and between 12,218 and 13,504 for 4 districts.

Please identify which districts you propose to have up for election in 2022 (three districts in a five-district plan or two districts in a four-district plan with a separate mayor), and which two districts would be up for election in 2024.

An online version of this map that allows you to zoom in and out for more detail is available as a link from the project website: <https://mapcovina.org/>
