1. Follow existing "population unit" borders where possible (precincts)
2. The requirements of contiguity and "essentially equal population" will be followed.
3. Since Covinans essentially are a city-wide "community of interest," this map means each district shares interest in the Arrow Hwy corridor, the Metrolink issues, and all East-West traffic corridors.

Hi 

Apologies, I thought 2022 may have already been decided.

I would propose Districts 3 and 4 be up for election next year (2020) as well to maintain the standard four year rotation.

I submitted only a hard copy and cannot revise digitally. Is this email response sufficient for you to alter the election date?

I meant to say, Districts 3 and 4 to be up for election in 2022, not 2020.
