Subject: New possible Disticts

I am opposed to cities being forced to vote by districts and want all residents to vote for all council members when they run for office. And especially smaller cities.

Map 2 is the best map because it provides as close as possible to equal populations and ethnicity counts and provides both residential areas and commercial areas in each district.

Attorneys have done this to Glendora and West Covina and made money doing it and they don't even live in or close to our cities in the San Gabriel Valley.

Please support Map 2.

Subject: Covina Resident supporting District Map 2

To: the Council Members of the City of Covina
Re: District Voting Map: I Support Map 2
From: Dale Quasny, City of Covina resident
Date: January 18, 2022

1. The City of Covina City Council is the most diverse council in this area: 1 Black man, 2 Hispanic men, 1 Hispanic woman, and 1 white man.
2. The issue is **NOT** about "Diversity" or "Voting Rights".
- 3.
4. Apparently, this action is supported by a lawyer who mailed out a form letter with threats to sue to make some money. This type of action was also done in Glendora, San Dimas, and West Covina and now is being foisted on the City of Covina. This is unacceptable.
- 5.
6. Politics should not be the motivation for this action but about providing the Covina residents the best most knowledgeable representation available for their specific area.
- 7.
8. This reminds me of the redistricting to gain more power by specific politically motivated people. These people are just interested in their power. This is unacceptable behavior.
- 9.
10. Map 2 meets the Federal Voting Rights Act requirements with equal populations and ethnicity counts.
- 11.
12. The map runs laterally (east to west across the city) providing each district with some commercial areas and some residential areas to represent.
- 13.
14. I don't like or approve of Voting by District in any of our cities.

15.

16.If we (the citizens of Covina) are forced to vote by district, I support District Map 2.

Please remember that you are representing the citizens of The City of Covina, not yourselves. I am disappointed that this decision was not broadcast to each eligible citizen of the City of Covina to voice their opinion.

It seems apparent that The City of Covina needs a more complete & inclusive communication system with their constituents on these important matters. How do we put a better system into place for the immediate future? Please respond to these inquiries with possible options that can be quickly & immediately implemented to educate the citizens of these important matters.

Sincerely

Ms. Dale Quasny
